```
1  {
2      "success": true,
3      "message": "Please check your email to verify your account."
4  }
```

Output :
```
{
    "success": true,
    "message": "Please check your email to verify your account."
}
```

For mail verification :

Method: POST
End point : /auth/verify-email

Input :
```
{
    "email":"johndoe@example.com",
    "oneTimeCode":741603
}
```

Output :

```
{
    "success": true,
    "message": "Your email has been successfully verified. Your account is now fully
activated.",
    "data": {
